The Board approved an agreement with Cartegraph Solutions to extend the contract through 2025. This program is used for work order management, tracking assets, and operations management.

The Board approved to list a hydraulic machine and 1992 International dump truck that no longer runs on Gov Deals.

The Public Works Department purchased an International 7400 from Stoops Western Star for $29,500. The Public Works Department had been actively looking for a replacement dump truck for a 1995 International that has several mechanical issues and has become unreliable. Due to the high demand on new vehicles and the wait times to obtain one, a used truck was found which will be added to our fleet. The dump truck comes set up from another municipality to be able to plow snow and salt roads. Currently, to purchase a new truck, add the dump bed and equipment needed to plow and salt would cost approximately $180,000.00. The used truck to be purchased has 35,000 miles with a cost of $29,500.00.
